New Batrachological Society and Journal

On 6 November 1982 was founded in Paris the Société Batrachologique de France (Société pour l'Etude et la Protection des Amphibiens). The purpose of this Society is to contribute to our knowledge of Amphibians, to preserve the species and their habitats and to further communication between batrachologists. It is probably the first scientific society in the world to be specifically devoted to batrachology. The study of Amphibians has long been included in herpetology, but Amphibians are only distantly related to Reptiles and they require a specific discipline, namely batrachology. Herpetology should be restricted to the study of Reptiles. Membership of the S.B.F. is open worldwide to anyone interested in Amphibians. Applications for membership should be sent to the General Secretary of the S.B.F., Alain Dubois (address above).

The S.B.F. publishes the new quarterly journal Alytes, which is open to all kinds of papers dealing with the Amphibians. The co-editors of Alytes are Alain Dubois and Jean-Jacques Morère (address above). The editorial board presently consists of Jean-Louis Amiet (Yaoundé), Michail Fischberg (Genève), Benedetto Lanza (Firenze), Raymond Laurent (Tucuman) and Madeleine Paillette (Brunoy). Manuscripts intended for publication in Alytes should be in English or in French, and should be sent in triplicates to the co-editors.

If you wish to receive the journal in 1983, please return the Order Form below to the General Secretary of the S.B.F. and send 35.-- French Francs: (# 5 \$)

- either by postal credit transfer to our postal check account:

Société Batrachologique de France  
Postal check account N° 7976 90 K, Paris;

- or by payment order from your bank to our bank account:

Société Batrachologique de France  
Banque nationale de Paris, agence Assas  
Bank account N° 748056 / 37  
(30004 01697 00000748056 37)

Please do not send your checks directly to us.

Back issues are also available at the price of 10.-- F.F. each.
