

Registration No.: _____

Indiana University Axolotl Colony

User Registration 1996-97

All laboratories, instructors, or individuals who wish to obtain axolotl embryos, larvae, or adults from the Axolotl Colony must register with the colony by providing answers to the questions below. Each registrant will receive a registration number. Each laboratory should register only once. All students, post-doctoral associates, technicians, and others associated with a research program use the same registration number when ordering. A single contact person should be designated for communications with the colony.
